Swetha Rani G

Lead Software Engineer

As a self-taught technical person with 8+ years of experience, I transitioned from a non-technical role to becoming a skilled software developer early on in my career. By quickly learning and adapting to new technologies, I have developed expertise in web and mobile application development. I strive to create products that are both functional and aesthetically pleasing, while making sure to prioritize user experience

Experience

2020 - present
Swiggy | Bengaluru
Lead Software Engineer

Dineout App
- Contributed significantly to the success of the Dineout App, a part of Swiggy's customer-facing app ecosystem that has 100M+ downloads on Play Store. Received MVP award for outstanding contributions.
- Managed a team of 5 frontend developers.
- Utilized React-native, GraphQL, and nodeJS.

Flujo Dashboard
- Primary Frontend developer in a team of 2, an internal dashboard used as a fraud prevention measure.
- Developed using ReactJS and GraphQL.

2014 - 2019
First WalkIn Technologies | Bengaluru
Senior Software Engineer

Cafe Coffee Day App
- Developed a consumer-facing mobile app using React Native that allows customers to place orders at their favorite store before stepping into the café.
- Worked on all aspects of the project, including identifying areas for improvement, testing, and production support.

RefineX Dashboard
- Led the design, development, and deployment of company's product RefineX, an intelligent customer feedback product using the ReactJS framework.

2010 - 2011
Cognizant Technology Solutions | Chennai
Programmer Analyst

Worked on a Software testing tool called Load runner

Volunteer Experience

Bhumi & CRY
- Taught underprivileged children in orphanages, focusing on basic education and life skills.
- Prepared lesson plans and conducted classes with an interactive and engaging approach.
- Participated in health campaigns for needy children, educating them on basic hygiene practices and providing medical checkups.
